

Mr. Pace is currently the President and CEO of Rosemont Copper Company. The Rosemont Project is currently in permitting process with construction expected to start second half of 2012. The project has been designed using 21 century technology, along with sustainable practices to make the Rosemont Project a model mine of the future. Mr. Pace has Mining Engineering Degree from the Colorado School of Mines. He has over 30 years of mining experience, having worked 25 years with Washington Group International (Formerly Morrison Knudsen). Past positions held include: Mine Design Engineer, Project Engineer, Operations Manager, Manager of Engineering and Environmental, Director of Engineering, V.P. of Operations and Engineering. Mr. Pace has diverse operations background having worked in metal mines, coal mines and industrial minerals projects. Mr. Pace provided leadership for the start up of six mining operations between 1999 and 2005, in his previous role as Vice-President of North American Operations of Washington Group International.
