

Margaret Dykinga, M.Ed., RN
743-1400
MargaretD@Holmangroup.com

Margaret is the Regional Manager for Holman Frazier Behavioral Health. She is responsible for marketing Employee Assistance programs to organizations, hospitals and small businesses. She oversees each of the contracts in Tucson.

Margaret also specializes in designing and presenting professional development workshops to help employees and managers increase productivity and morale. She specializes in stress management, conflict resolution, communication skills and third party facilitation.

Margaret has managed mental health centers and provided EAP services to over 50 companies in Southern Arizona. She has coached executives, managers and supervisors and developed improvement plans for teams and departments.

Margaret has been a nursing supervisor and taught behavior modification skills to patients, families and community groups. She serves as a facilitator and mediator for business and community groups to resolve conflict and promote teamwork.

Margaret has a Master's Degree in education and counseling, a Bachelor's Degree in psychology and a three-year diploma in psychiatric nursing.
